ACRYLIC BATH • SOLUTIONS
Limited Lifetime Warranty

Liners Direct warrants its acrylic bath products (i.e., bathtub and shower liners, wall surrounds and all acrylic accessories manufactured or supplied by Liners Direct) to be free from defects in material and workmanship under normal household use and service for as long as the original purchaser owns the residence. We warrant that the surface of all acrylic products will not fade, yellow, crack, bubble or peel. In the event of any defects in material or workmanship, this warranty is limited, at Liners Direct’s option, to repair of such defects or to the replacement (with a similar item free from the defect in question) of the product.

In the event of any defects in material or workmanship, Liners Direct will supply free of charge any Liners Direct acrylic bath products or supplies necessary for the repair or replacement of the defective product. The dealer listed below is solely and exclusively responsible for all other costs of repair or replacement of the defective product, including all installation costs.

This warranty is invalid and void if the product is chipped, scratched, marred or otherwise damaged either deliberately or unintentionally, or if the product is exposed to or comes in contact with dyes, paints, inks, cosmetics, pigments, food, paint removers, fingernail polish removers, solvents or chemicals, cigarettes or any heat source, abrasive pads or cleansers or cleaning agents other than those approved by Liners Direct, as specified below. This warranty applies to owner-occupied residential homes only. Warranty valid only if the acrylic bath product is installed by a Liners Direct Certified Acrylic Technician who uses the Liners Direct approved Fusion Installation technique and uses only Liners Direct proprietary supplies, including but not limited to, Liners Direct MilGuard™ Sanitary-Grade Silicone Sealant, Liners Direct flat and round butyl tape, and corner reinforcements. This warranty is also invalid if the acrylic bath product has been repaired, altered or modified by someone other than a Liners Direct Certified Acrylic Technician or using supplies other than Liners Direct proprietary supplies. This warranty does not apply to replacement of any products made necessary by misuse, negligence in maintenance including the maintenance of all caulking seals, or the use of non-recommended cleaners. Buyer is responsible for periodic maintenance of caulking for finishing tub and walls.

Notice of any defect must be given to the company in writing within 10 days of the time the defect becomes apparent. The notice should be sent to the Liners Direct dealer listed below. Notice of a defect to this dealer will constitute notice to Liners Direct.

PRODUCT CARE AND MAINTENANCE

Clean the bathing area with an ordinary non-abrasive cleaner, a soft cloth and warm water, rinsing thoroughly after cleaning. A mild solution of vinegar and water may be used to soften hard water minerals. Scrubbing pads or abrasive cleansers are not recommended as they will dull the gloss finish. Avoid the use of all ammonia-based and “leave-on” cleansers.
